Instruction:

The training will start on Monday 27th November 2017 therefore, make sure you report at the College of African Wildlife Management, Mweka Main Campus at 09:00 am with the Bank Payslip and photocopies of academic qualification if it was not attached with your application forms. You should also come with training materials like pen and notebook.

You should arrange for your own accommodation and meals. For those who will be comfortable to camp on campus they will be given a consideration for a camping site however, you need to come with your own or to hire a tent.

There are several areas which sell food at the reasonable price around the campus.

Looking forward to see you and get yourself prepared for a competence and knowledge based training.

Training Coordinator.
